

Key to the VDMA

Your Topics - Our Experts

Dear members,

The machines and systems that you export each day all around the globe belong to the finest the market has to offer. Your knowledge of the customer's needs and your ability to think in terms of processes and solutions make our industry unique in the world.

The VDMA supports you with all its strength. Whether it's about analyzing and opening up new markets or about standardization and norms or whether it concerns a final little screw, needed to surpass the last obstacle and get your machine running – our experts will be there for you. With more than 500 employees, the VDMA is the most powerful industrial association in Germany and in Europe. And this team works for you, when you're in need of quick and hands-on answers.

Our aspiration is to help you with the right kind of information for the full range of topics concerning the machinery and engineering industry. These topics include:

- Markets and Economy
- Company and Management
- Social and Economic Policy
- Research and Production
- Profession and Training
- Energy and Environment
- Legal Affairs and Taxes
- Standardization and Technical Policy

You will find your VDMA-contacts in this brochure, organized alphabetically and filed under keywords. Do you need further information, or do you want to broaden your search? Then our website will help you: www.vdma.org/contacts

We look forward to your call and we are glad to assist you. Take advantage of the „Key to the VDMA“.

Yours sincerely,

Thilo Brodtmann
