Messe Düsseldorf GmbH

1. Organisers

The organisers of joint-company exhibitions within the scope of official participation of the Federal Republic of Germany at trade fairs and exhibitions abroad are the Federal Ministry for Economics Affairs and Energy (BMWi) in cooperation with the Association of the German Trade Fair Industry (AUMA), as well as the Federal Ministry of Food and Agriculture (BMEL).

2. Trade fair implementation company

The technical and organisational implementation of official participations is handled by trade fair implementation companies which, within the scope of these General Conditions of Participation (GCP) and the Special Conditions of Participation (SCP), act on their own behalf.

3. Eligibility to participate

Companies from the Federal Republic of Germany, as well as their foreign branches and agencies, are eligible to participate at joint-company exhibitions.

Industry associations and the implementation company of the respective participation, trade fairs and exhibitions abroad, shall not be taken into consideration in reaching a minimum number of participants, however they shall be permitted to participate.

4. Conclusion of contract

4.01 Registration to participate may take place only following the receipt, prior to the closing date, of a completed and signed registration form including attachment of the exhibitor’s advance payment to the implementation company. Registration shall be binding regardless of the admission for the exhibitor. No conditions and exceptions shall be permitted with the registration and these shall be regarded as not having been submitted.

4.02 The receipt of registration shall be confirmed in writing by the implementation company. The registration and confirmation of receipt shall not constitute a claim for admission, or for a specific size or location of the stand.

4.03 On condition that the company fulfills the necessary requirements according to Sections 3 and 8.01 of the GCP and that a minimum number of participants has been reached, the exhibitor shall receive written confirmation of participation (admission) from the implementation company. The admission does not constitute a claim for a certain size or position of the booth. In this respect, the exhibitor grants the implementation company a right to specify the performance according to Section 315 BGB (German Civil Code). With the receipt of the admission, the contract between the exhibitor and the implementation company is concluded. If the content of the admission deviates from the content of the registration, the contract shall be concluded in accordance with the admission.

4.04 Allocation of exhibition space: The exhibitor receives a plan after approval of the stand showing the location and dimensions of the stand. If the allocated stand space deviates more than 20%, but at least more than three square meters, from the registration the exhibitor can revoke the contract. The exhibitor must revoke the contract no later than one week after receipt of the allocation of the stand space by the implementation company. The exhibitor can not assert claims for damages arising from the revocation.

4.05 Following admission of the exhibitor, the implementation company may assign exhibition space, other than that planned for in the admission, to the exhibitor, if this is necessary for preserving the overall image of the joint stand. In this case, the implementation company shall provide the exhibitor with an area which is substantially equivalent by location and size.

Should the implementation company be forced to move or alter individual stands, entrances, exits, or aisles, subsequent to admission, through circumstances beyond its control, such as directives from public authorities or instructions from the trade fair or exhibition management, no resulting claims may be asserted. If the exhibition space is reduced, the exhibitor shall be entitled to a proportional reimbursement of the price of participation. No claims for damages may be made. In the event of deviating measurements and a resulting marginal difference between specified and actual dimensions of the stand, this shall not constitute grounds for any claims on the part of the exhibitor.

4.06 Stands shall be handed over to the exhibitor or its commissioned agent following agreement with the implementation company prior to the start of the event.

4.07 After assignment of the exhibition space, the exhibitors will be informed by the implementation company by circulars about the preparation and implementation of the joint-company exhibition. Consequences arising from the non-observance of these circulars are the sole responsibility of the exhibitors.

4.08 In case of serious breaches of contract, the organizer reserves the right to exclude the exhibitor from future participations.

5. Sub-exhibitors

5.01 Stands are assigned only as a whole and only to one exhibitor. The use of the stand space by multiple companies is only permissible on joint-company presentations and only if all companies represented there beside the exhibitor, are notified to the implementation company as a sub-exhibitor and admitted by it. The admission of sub-exhibitors is likewise based on the criteria of these Conditions of Participation.

5.02 Companies represented on the exhibitor’s stand space have to register as sub-exhibitors. Companies that are obliged to sign a joint consolidated financial statement with the exhibitor are deemed to be sub-exhibitors, if placed on a joint stand.

5.03 In all other respects, these terms and conditions apply to the sub-exhibitors, if applicable. Participation of sub-exhibitors is subject to charges. Also after admission of a sub-exhibitor privity of contract only exists between the implementation company and the exhibitor. Therefore the exhibitor is charged the costs associated with the participation of the sub-exhibitor. The exhibitor is liable for fault on the part of its sub-exhibitors to the same extent as for fault on its own part.

5.04 If the exhibitor admits another company without the approval of the implementation company, the implementation company is entitled to terminate the contract with the exhibitor without notice and to clear the stand showing the location and the size of the stand of the exhibitor’s entire content. Damage claims on the part of the exhibitor do not exist in this case.

6. Revocation / non-participation

6.01 The implementation company shall be entitled to withdraw from the contract, if:

- if bankruptcy proceedings are filed in respect of the exhibitor’s assets. The exhibitor shall be obliged to immediately inform the implementation company of this,
- if admission is based on the wrong conditions or on incorrect information,
- if the conditions upon which admission is based cease to exist at a later date,
- if, despite a reminder and an extended deadline being set, the payment date is not adhered

The consequences are laid down in Section 6.02 of the GCP.

6.02 Should the exhibitor forgo the stand space allocated to it, it must:

- pay the entire participation fee, insofar as the space cannot be rented out by the implementation company to another exhibitor,
- pay 20 % of the participation fee, a maximum, however, of EUR 500.00, insofar as the space can be rented out by the implementation company to another exhibitor, unless the exhibitor can furnish proof that no damage or considerably less damage has been caused.

This does not apply to the cases according to Section 4.04 of the GCP.

6.03 The revocation by the exhibitor or forgoing of the assigned stand space will only take effect upon receipt of the written declaration by the implementation company.

6.04 Stands, which have not been taken over by the exhibitor or its commissioned agent in accordance with the agreement, may be used for another purpose, without the exhibitor being able to assert claims above and beyond the rights included in Section 6 of the GCP.

7. Stand equipment, design, operating obligation and additional paid services

7.01 The equipment and design of stands, as far as they exceed the services of the participation organiser mentioned in the SCP, are the responsibility of each exhibitor. The building regulations valid at the event location, and the construction guidelines of the implementation company regarding the type of design apply.

It is not permitted to use a two-storey structure. The frame design elements “made in Germany” intended for halls without a stand construction may not be concealed.

7.02 The exhibitor is obliged to coordinate its design measurements with the implementation company beforehand. A stand design which does not comply with the regulations made here, the building regulations applicable at the venue or the construction guidelines of the implementation company can be removed or modified by the implementation company at the expense of the exhibitor.

7.03 The exhibitor has a presence and operational obligation for its stand during the opening hours for the entire duration of the trade fair including the last day of the fair.
