This Statistics Program was developed by the Working Group of the International Statistics on Vacuum Technology Program (ISVT), and is published with their permission. Organizations that participate in the program are the Association of Vacuum Equipment Manufacturers International (AVEM), the Japan Vacuum Industry Association (JVIA), the European Vacuum Technology Association (EVTA), and the Semiconductor Equipment and Materials International (SEMI).

Frankfurt, Germany, January 2019

The Vacuum Statistics Program
ISVT
The most comprehensive statistics program on Vacuum Technology today.

Advantages at a glance
- Most detailed and comprehensive statistics data
- Developed by vacuum technology experts
- Comprehensive classification with 50 product categories over six regions
- Covering real statistics, not estimated market volumes
- Reports are company-specific and cover your products and markets
- Never out-of-date due to continuous reporting and quarterly updates
- Exclusive partnerships with leading industry associations like SEMI.org
- Safety and confidentiality of the data are most important
- Proven quality of an “insider” statistics program, refined since 2001

Key Features
- Established in 2001 – many years of experience and proven quality
- Developed in cooperation of the three major associations
- Sales data is collected every quarter of the year on multiple levels by:
  - Product
  - Vacuum Market
  - Region
- Exclusive outlook into the development of the vacuum technology market
- The quality of the statistics is monitored by a quality committee
- Easy and fast web-based reporting and analysis as of 2020

Your data is save
- Confidentiality is guaranteed
- Individual members data will not be shown
- Market share conclusions are not possible
- External interest groups have strictly no access
- Reporting and communication is aligned with Antitrust policies

Advantages at a glance
- Quarterl Report covering the worldwide sales data in detail over
- 50 product categories,
- nine vacuum markets and
- six regions of the world
- Condensed Analysis on all
- vacuum markets and
- regions of the world
- Business Climate Indicator (BCI) every six months

Reports
- Vacuum Product Categories
- Vacuum Markets
- Vacuum Regions
- Key Features
- Your data is save

Member benefits
- You are part of an international circle of experts in vacuum technology
- You have exclusive access to information and data, not available elsewhere
- You are invited to participate in the annual ISVT Working Group Meetings
- You have access to the consolidated (worldwide) data for every product category
- You get an exclusive outlook into the future via the Business Climate Indicator
- You get additional analysis like a Long-Term Index (beginning 2006)
- You get free-of-charge promotion in every new print of the ISVT Buyers Guide
